

ASB PACKING LIST

****Be prepared to get dirty!! Wearing appropriate shoes can make or break this trip for students.****

- Tall rubber boots and/or hiking boots: athletic shoes are not advised. There is high potential to become wet and muddy and some areas we work will be rocky and semi-difficult to navigate. We encourage an extra pair if your shoes become wet and don't dry in time!
- Rain coat/suit: work often continues in light rain conditions and nothing is worse than being wet and cold!
- Layers: In the years past, week 1 has been extremely cold and rainy. We've experience sleet storms, and snow! You can always take layers off, but if you don't bring enough you will be COLD! A hat that covers your ears is a great idea! We will provide work gloves.
- Sunglasses: we will be traveling in boats everyday and frequently there is dust/debris on the bow. Sunglasses will protect your eyes!
- Reusable water bottle/dining utensils: please help us reduce the waste we create at this event! As well as your water bottle, bring a plate and utensils! You will be able to wash them on the barge each day. PLEASE write your name/group name on these.

LL&W cannot be held responsible for lost items.

WHAT NOT TO BRING TO A CLEANUP:

- Your favorite new hat/shirt
- Your lucky watch
- Your new Nike's
 - White pants
- Your purse/bookbag
